Projects

MediQ – Healthcare Information Systems | *National Hospital, Karapitiya*

- **Role:** Documentation & Project Support Lead
- Prepared SRS, user guides, and system documentation for antibiotic usage and antibiogram systems.
- Coordinated between IT developers and medical staff to gather requirements and track implementation.
- Officially recognized by Prof. C. Lakmal Fonseka (University of Ruhuna).

QR-Based Attendance, Payment & LMS System | PHP, MySQL, JS, Bootstrap

🏆 *2nd Place Winner – HNDIT Innovation Competition*

- Built a web app with QR attendance tracking, course fee payments, and LMS access.
- Designed relational MySQL database models and created role-based responsive dashboards.
- **GitHub:**
github.com/Tharu003/QR_based_Attendance_Payment_Management_System

Hotel Management System | PHP, MySQL, HTML, CSS, JS, Bootstrap

🏆 *2nd Place Winner – Introva 1.0 Pulzar Society Academic Competition*

- Developed a full-stack web app for room reservations, check-ins/outs, and automated billing.
- Optimized database queries for room availability tracking and administrative reporting.
- **Github :**
[github.com/Tharu003/hotel_management_system](https://github.com/Tharu003/hotel_mangement_system)

Tuition Class Management System | PHP, MySQL, HTML, CSS, Bootstrap

- Collaborated in a team to build a web system for student enrollment and fee management.
- Designed database schemas for student logs, class schedules, and payment processing.
- **GitHub:** github.com/Tharu003/tuition-management-system
